

REPORT

This graph shows a counting of the top 10 best-selling models on market, this will be a help to the seller to know what are the most requested models on market.

Is recommended to get more models like these with different trim levels and different transmission to different types of clients.

Is important to take into account the quality of these models to know why they are the Top 10 best-selling.

This will help them know why they are the most requested and have a better knowledge of the market.

It is good to know why they prefer them since this way they will be able to include other new models on the market that meet these previously investigated conditions.
